Do you ever feel caught in an endless cycle of working harder and longer to get more while enjoying life less? The Stewart family did—and they decided to make a radical change. Popular Catholic blogger and podcaster Haley Stewart explains how a year-long internship on a sustainable farm changed her family’s life for the better, allowing them to live gospel values more intentionally. When Haley Stewart married her bee-keeping sweetheart, Daniel, they dreamed of a life centered on home and family. But as the children arrived and Daniel was forced to work longer hours at a job he liked less and less, they dared to break free from the unending cycle of getting more yet feeling unfulfilled. They sold their Florida home and retreated to Texas to live on a farm with a compost toilet and 650 square feet of space for a family of five. Surprisingly, they found that they had never been happier. In The Grace of Enough, Stewart shares essential elements of intentional Christian living that her family discovered during that extraordinary year on the farm and that they continue to practice today. You, too, will be inspired to:

- live simply
- offer hospitality
- revive food culture and the family table
- reconnect with the land
- nurture community
- prioritize beauty
- develop a sense of wonder
- be intentional about technology
- seek authentic intimacy
- center life
around home, family, and relationships Drawing from Pope Francis’s encyclical on the environment, Laudato Si, Stewart identifies elements of Catholic social teaching that will enhance your life and create a ripple effect of grace to help you overcome the effects of today’s throwaway culture and experience a deeper satisfaction and stronger faith.

Global warming has reached terrifying heights of severity, human consumption has caused the extinction of countless species and neoliberalism has led to a destructive divide in wealth and a polarization of mainstream politics. The climate crisis demands action. Your planet needs you! Can we shop our way out of a crisis? Will technology save the day? What does it mean to be a citizen and not a consumer? Are the real solutions inside of us? Who Cares Wins provides a plethora of solutions guaranteed to inspire and create lasting global change. Lily Cole has met with some of the millions of people around the world who are working on creative, innovative solutions to our biggest challenges and are committed to creating a more sustainable and peaceful future for humanity. Embracing debate and exploring issues from fast fashion to fast food, farming to plastic waste, renewable energy to gender equality, the book features interviews with diverse voices from entrepreneurs like Stella McCartney and Elon Musk, to activists such as Extinction Rebellion co-founder Dr Gail Bradbrook, Farhana Yamin, Isabella Tree, Putanny Yawanawa and Alice Waters, to offer a beacon of possibility and celebrate the joy and power of collective global creativity in challenging times. Who Cares Wins is a rousing call to action that will instil hope and leave you feeling equipped with the solutions and practical steps needed to make a difference. We are the ancestors of our future: a generation that will either be celebrated for its activism or blamed for its apathy. It is time for us to choose solutions over despair, to act now and create a better future. 'It's a positive, useful book - how to make choices. We need to get
governments on board. I wish Lily was world controller' Vivienne Westwood, fashion designer and founder of Vivienne Westwood Ltd 'A welcome and thorough overview of some of the many aspects of the crisis humanity is now facing alongside the visionary possibilities for change at our fingertips. If we don't act it isn't for lack of good ideas' Dr Gail Bradbrook, co-founder of Extinction Rebellion 'Your book is golden, like you' Patti Smith

Gritty, heartrending and unputdownable – the story of two sisters sent first to an English, then an Australian orphanage in the aftermath of World War II. Rita and Rosie Stevens are only nine and five years old when their widowed mother marries a violent bully called Jimmy Randall and has a baby boy by him. Under pressure from her new husband, she is persuaded to send the girls to an orphanage – not knowing that the papers she has signed will entitle them to do what they like with the children. And it is not long before the powers that be decide to send a consignment of orphans to their sister institution in Australia. Among them – without their family's consent or knowledge – are Rita and Rosie, the throwaway children. What readers are saying about THE THROWAWAY CHILDREN: 'I haven't felt so immersed in a book in a very long time and have recommended to just about everyone' 'Heart wrenching' 'A truly powerful book'

A wide-ranging inquiry into the nature and possibility of restoration.

Jessie Jones is living the life--except for the fact that she earns it by working the streets. She's been under pimp Spence's thumb for fourteen years, and she isn't looking for change. That is, until undercover cop Gabe walks into her life and offers her something she's never had before: a love, a future, a home.
But even if Jessie could walk away from Spence, there are darker forces of evil who want her to stay put, or worse, dead. In this romantic suspense, author Heather Huffman delivers an adventure from the vibrant streets of St. Louis to the caves of the Ozarks as Jessie discovers whether she can love another, whether she can love herself, and whether any of it is enough. Don't miss Heather Huffman's other books: "Suddenly a Spy," "Jailbird," "Ties That Bind," "Ring of Fire," "Tumbleweed," "Devil in Disguise," "Roses in Ecuador," "Fool's Game," "Waiting for You," "The Vance Davis Dossier," and "Finding Broken Arrow"!

A timely edge-of-your-seat thriller from a debut writer to watch. Caroline is only three months from her great escape — leaving behind her rigid prep school and the parents who think they can convert her to being straight — when her best friend, Madison, goes missing. There's no question that Caroline will get involved in the investigation. After all, she has her own reasons for not trusting the police, and she owes Madison big time. But Caroline uncovers a wider mystery as she follows the clues, with other missing girls and no one on the case. Why isn't anyone looking for these girls? And what is the connection between them and Madison? Could it be . . . Caroline herself?

The present economic system requires us to consume and throw away more and more goods. Yet often it's our desire, and the best interests of the environment, for these goods to last. The contributors to this book, who comprise many of the most significant international thinkers in the field, explore how longer lasting products could offer enhanced value while reducing environmental impacts. If we created fewer but better quality products, looked after them carefully and invested more in repair, renovation and upgrading, would this direct our economy onto a more sustainable course? The solution sounds simple,
yet it requires a seismic shift in how we think, whether as producers or consumers, and our voracious appetite for novelty. The complex range of issues associated with product life-spans demands a multidisciplinary approach. The book covers historical context, design, engineering, marketing, law, government policy, consumer behaviour and systems of provision. It addresses the whole range of consumer durables - vehicles, kitchen appliances, audio-visual equipment and other domestic products, furniture and floor coverings, hardware, garden tools, clothing, household textiles, recreational goods and DIY goods - as well as the re-use of packaging. Longer Lasting Products provides policy makers, those involved in product design, manufacturing and marketing, and all of us as consumers, with clear and compelling guidance as to how we can move away from a throwaway culture towards an economy sustained by more durable goods.

Duluthian Peter Opack knows of what he writes. Jobless and homeless once, Opack researched America's past and examines the future of our great country. Opack discusses Used to be America and asks the questions, Is it right to throw people and their jobs away? What dangers lurk in America's future? A Minnesota state jobs counselor, Opack tells it like it is.

Easy, do-able, down to earth ideas and suggestions for everyone to help save the planet. If you want to save the planet, but your to-do list is already pretty long and remembering your re-usable coffee cup feels like a Herculean task, then this is the book for you. Covering every aspect of our lives from the stuff we buy and the food we eat, to how we travel, work, and celebrate. This book provides stacks of practical, down to earth ideas to slot into your daily life, alongside a gentle kick up the butt to put your newfound knowledge into action. Practical tips include unsubscribing from all the tempting emails that
drop into your inbox with details of the newest clothing range or the latest sale, and keeping a mug next to your kettle to work out how much water you actually need to boil each time, as over filling kettles costs British households £68 million on energy bills each year. Find out how to fit "sustainable living" into your life, in a way that works for you. Change your impact without radically changing your life and figure out the small steps you can make that will add up to make a big difference (halo not included).
