Sadhus in Indian Politics: Dynamics of Hindutva maps the changing face of contemporary Hindu politics, evaluating the influence of sadhus (ascetics) on the course of politics in India. This book explores the anxieties around ascetic engagement with public affairs, understanding politics as janaseva and polities as rajniti, and the authority exercised by these sadhus. It investigates the spirit of ‘individualism’ reflected by the sadhus in the organized and unorganized domains of politics, and traces the dialectics of ‘Hindutva’ reflected through selected case studies, exposing the patterns of how the sadhus got involved in the muddled world of politics. This book also demonstrates the uneasy conflict between the modern Hindu right wing and Hindu traditionalists with their advocacy of Sanatan Dharma. It turns
towards sadhus and gurus to explore the ‘Hindu-ness’ of the Hindus and confronts the metanarrative of Hindutva offered by various institutions.

With all of the different religions, sects, denominations, and belief systems out there, it can be difficult to separate the facts from mere opinion, especially if one is relying solely on online sources which may or may not be vetted and which often have an ideological or political slant to them. How can we truly understand if we cannot even be sure we are getting the facts straight? In this comprehensive resource, more than 75 evangelical scholars offer a thoroughly researched guide to Christianity, other world religions, and alternative religious views, including entries on movements, theological terms, and major historical figures. Perfect for pastors, students, and anyone who wants ready access to information on today's religious landscape.

This collection of essays looks at missions, their complicity in European colonialism, and their postcolonial aftermath. It examines the spread of Christianity, ranging over the anthropological, textual, historical, and geographical dimensions of mission enterprises, with topics as diverse as the influence of mission printing and record-keeping on
traditional life in Africa to the role of missions in changing styles of dress in India. Also, uniquely, the collection includes essays analyzing the role of proselytizing in Islam, Hinduism, and Buddhism, as well as American liberal democratic capitalism. The volume is interdisciplinary, focusing on textual and material aspects of missions. Like Griffiths' earlier ground-breaking books in postcolonial studies, and Scott's well-known interdisciplinary work on missions and postcolonial literatures, this collection will be fascinating to scholars in postcolonial/cultural and mission studies and be useful as a teaching tool as well. Mixed Messages was listed among the 15 best books for 2005 in the Jan 2006 issue of The International Bulletin of Mission Studies.
