Alekhine's Gun – Playasia
Aleksandr Aleksàndrovitx Alekhin (en rus: Алекса́ндр Алекса́ндрович Алéхин, AFI [ɐlʲɪkˈsandr ɐlʲɪkˈsandrəvʲɪtɕ anˈr] or in English as Alexander Alekhine) was a leading Soviet/Greek chess player and World Chess Champion. After World War II, Alekhine lived in France, and later in America. He is considered one of the greatest chess players of all time, and is known for his flashy style and his daring, often risk-taking moves. Alekhine was also a prolific writer on the game of chess, and his books remain popular today. His most famous book is "Chess Life and Love," which was first published in 1931 and has been reprinted numerous times since then. Alekhine was an extremely versatile player, excelling in both opening theory and endgame techniques. He is considered one of the greatest tacticians in chess history, and his games are still studied by players of all levels for their technical skill and strategic ingenuity. Alekhine was also known for his prodigious memory and his ability to quickly analyze complex positions on the chessboard. His playing career spanned over 50 years, and he was one of the first players to achieve the title of International Grandmaster (IM). Alekhine's influence on the game of chess is still felt to this day, and he remains one of the most celebrated chess players in history.

Alekhine — MATLAB Cody — MATLAB Central

The game spread throughout Asia and Europe over the coming centuries, and eventually evolved into what we know as chess around the 16th century. One of the first masters of the game was a Spanish priest named Ruy Lopez. Although he didn't invent the opening named after him, he analyzed it in a book he published in 1561.

History of Chess | From Early Stages to Magnus — Chess.com

Russia is a huge landmass that technically encroaches upon both Asia and Europe. Russia, which is officially named the Russian Federation, is the largest sovereign nation in the world. The country has a total land area of 17,098,242 square kilometers. It is the ninth most populated nation in the world with a population of 144 million people.
Asia The EU's main objective in Asia is to help engender the political and social stability of the region, promoting policies to assist in maintaining as much as possible its high rates of economic growth, also for the benefit of Europe's own economy and citizens.

William John Donaldson (born September 24, 1958) is an American chess player, author, journalist and chess official. He was awarded the title of International Master by FIDE in 1983. Donaldson was captain of the US team in six Chess Olympiads from 1986 to 1996. At the 1988 Olympiad in Thessaloniki, Donaldson married Elena Akhmilovskaya, a member of the Soviet team.

Dutch Grandmaster Hans Ree is considered by many to be the best chess writer in the world today. As noted by the Dutch newspaper Algemeen Dagblad, reviewing the original Dutch edition, "This is more than a book about chess politics or leaders in the chess world. It is above all a declaration of love for the game, with an elegant collection of odes to the greater and lesser personalities that evolve around the 64 squares. Ree personally knows many of the people he writes about. That leads to beautiful and striking portraits." In almost sixty separate essays, in seven categories (World Champions, Politics, In Memoriam, History, The Endgame, Matches & Tournaments and Miscellanea), Ree touches on chess matters near and dear to the hearts of chessplayers worldwide. This book, published in 1999, still retains its relevance, insight and its edge, more than a decade after being released.

The fourth title in the popular World Chess Champion Series is about the enigmatic Alexander Alekhine. Tracing the Russian-born champion from his youth in Russia, through his assault on the chess Olympus and beyond, this book paints a fresh portrait of the player who was one of the most spectacular tacticians ever to play the game. The authors do not shy from confronting some of the less savory aspects of Alekhine’s life. They stick to the facts and present the issues surrounding the fourth world champion. “This book clears up some of the mysteries of Alekhine and provides some wonderful details...There are so many intriguing aspects to Alekhine’s life that it’s easy to forget how much he dominated the chess world...The Linders capture quite well the drama of Alekhine’s world championship matches with José Capablanca and Max Euwe. Even the blowouts against Efim Bogoljubow are well-described. Alekhine was the most peripatetic of champions, and this book details many of his travels and simul tours.” – Andy Soltis in his Foreword.
How to Reassess Your Chess is the popular step-by-step course that will create a marked improvement in anyone's game. In clear, direct language, Silman shows how to dissect a position, recognize its individual parts and ultimately find the move that conforms to the needs of that particular situation. By explaining the thought processes that go into a master's choice of move, the author presents a system of thought that makes advanced strategies seem clear, logical and at times even obvious. How the Reassess Your Chess offers invaluable knowledge and insight that cannot be found in any other book.

A cornucopia of games, positions, biographies, mysteries, howlers, reviews, quotations, etc., featuring a cast of hundreds from the chess world of today and yesteryear -- the champions and the under-achievers; the scholars and the bunglers; the saints and the sinners. Every page provides fascinating, little-known material from an author who is prepared to name names.

This compendium provides an enormous amount of documentary data, usefully organized, much of it unseen since original (and often obscure) publication. Writings are by and about Capablanca; the minute details of his life and games proceed chronologically; the controversies of his career are especially well documented. The book has a games and positions index, an index of openings, a general index, and 26 rare photographs on glossy plates.
