manual, including pre-lab video coaching activities, bone, muscle, and dissection videos, Dynamic Study Modules, Get Ready for A&P, plus a variety of Art Labeling Questions, Clinical Application Questions, and more.

Note: You are purchasing a
standalone product; Mastering A&P does not come packaged with this content. Students, if interested in purchasing this title with Mastering A&P, ask your instructor for the correct package ISBN and Course ID. Instructors, contact your Pearson
representative for more information. If you would like to purchase both the physical text and Mastering A&P, search for: 0134767330 / 9780134767338 Human Anatomy & Physiology Lab Manual, Main Version Plus Mastering A&P with Pearson eText
This is a lab manual for a college-level human anatomy course. Mastery of anatomy requires a fair amount of memorization and recall skills. The activities in this manual
encourage students to engage with new vocabulary in many ways, including grouping key terms, matching terms to structures, recalling definitions, and written exercises. Most of the activities in this manual utilize anatomical models, and several dissections of...
animal tissues and histological examinations are also included. Each unit includes both pre- and post-lab questions and six lab exercises designed for a classroom where students move from station to station. The vocabulary terms used in each unit
are listed at the end of the manual and serve as a checklist for practicals.

Terry Martin, author of the best-selling laboratory manuals to
accompany the Hole’s Human Anatomy & Physiology texts, has written a stand alone laboratory manual. This series of laboratory manuals (main – no dissection, cat dissection, fetal pig dissection, and rat dissection) will incorporate Terry’s clear, concise writing.
style. These manuals are not associated with any one text and were created for use with any anatomy and physiology text. The manuals also feature incredible artwork and photos. It can be packaged with Ph.I.L.S. 4.0.

identification, and anatomic explorations in the laboratory setting with the Anatomy & Physiology Laboratory Manual and E-Labs, 9th Edition. The practical, full-color lab manual contains 55 different A&P lab exercises that cover labeling anatomy, dissecting...

Page 74/89
anatomic models and fresh or preserved specimens, physiological experiments, computerized experiments, and more. The manual also includes safety tips, a comprehensive instruction and preparation guide for the laboratory, and tear-out
worksheets for each of the 55 exercises. In addition, 15 e-Lab modules offer authentic 3D lab experiences online for virtual lab instruction. 15 interactive eLabs further your laboratory experience in the digital environment.

Complete list of materials for each
exercise offers a thorough checklist for planning and setting up laboratory activities. Over 250 illustrations depict proper procedures and common histology slides. Step-by-step guidance for dissection of anatomical models and fresh or preserved specimens,
with accompanying illustrations, helps you become acclimated to the lab environment. Physiology experiments centering on functional processes of the human body offer immediate and exciting examples of physiological concepts. Easy-to-evaluate, tear-
out lab reports contain checklists, drawing exercises, and questions that help you demonstrate your understanding of the labs they have participated in. Reader-friendly spiral binding allows for hands-free viewing in the lab setting. Labeling and coloring
exercises provide opportunities to identify critical structures examined in the lab and lectures. Brief learning aids such as Hints, Landmark Characteristics, and Safety First! are found throughout the manual to help reinforce and apply knowledge of anatomy and
function. Modern anatomical imaging techniques, such as MRIs, CTs, and ultrasonography, are introduced where appropriate. Boxed hints and safety tips provide you with special insights on handling specimens, using equipment, and managing lab
activities. UPDATED! Fresh activities keep the manual current and ensure a strong connection with the new edition of the A&P textbook. NEW! Updated illustrations and design offer a fresh and upbeat look for the full-color design and learning.
objectives. NEW! Expanded and improved student resources on the Evolve companion website include a new version of the Body Spectrum electronic coloring book.
For two-semester anatomy & physiology lab courses. A concise, workbook-style approach for a fast-paced A&P lab course. This full-color laboratory manual is designed for instructors who teach a two-semester anatomy & physiology lab course, but do not.
require the full range of laboratory exercises found in Marieb and Smith's best-selling Human Anatomy & Physiology Lab Manual (Cat, Fetal Pig, and Main). Written to complement Marieb and Hoehn's streamlined Anatomy & Physiology, 7th Edition, the manual
can be used with any two-semester text. The 27 concise, activity-based lab exercises explore fundamental concepts in anatomy & physiology and build students' observational and laboratory skills. The manual's workbook-style approach
incorporates visual summary tables, reviews key information, and engages students with hands-on drawing, labeling, and writing activities that can be completed using handy tear-out review sheets. Each lab includes learning objectives and efficient summaries.
of key concepts, as well as a list of materials needed for conducting the lab. The 7th Edition adds dozens of new, full-color illustrations and photos plus new critical thinking and clinical application questions to the Exercise Review Sheets. To
improve clarity and readability, the headings, exercise tabs, and tables feature more saturated colors.
