Continuing on from the previously published Primary School English-Language Education in Asia: From Policy to Practice (Moon & Spolsky, 2012), this book compiles the proceedings which took place at the 2011 annual conference of AsiaTEFL which took place in Seoul, Korea. It surveys the current status, practices, challenges, and future directions of
Secondary English education in 11 diverse countries - in Israel, Japan, Korea, Singapore, Bangladesh, India, Indonesia, Malaysia, Pakistan, Vietnam and China. Given the importance of secondary English education as the central feature for continuing development of target language and culture in English language teaching in Asia, each contributed chapter includes key policies, theories, and practices related to the development and implementation of country-specific curricular and instructional programs in secondary English educational contexts in these countries. Secondary School English Education in Asia: From Policy to Practice critically analyses both sides of the English language debate – from advantages to complications – in its chapters.
This book examines the development of English-translated Tang poetry and its propagation to the Western world. It consists of two parts, the first of which addresses the initial stage of English-
translated Tang poetry’s propagation, and the second exploring its further development. By analyzing the historical background and characteristics of these two stages, the book traces the trend back to its roots, discusses some well-known early sinologists and their contributions, and familiarizes readers with the general course of Tang poetry’s development. In addition, it presents the translated versions of many Tang poems. The dissemination of Tang poetry to the Western world is a significant event in the history of cross-cultural communication. From the simple imitation of poetic techniques to the acceptance and identification of key poetic concepts, the Tang poetry translators gradually constructed a classic “Chinese style” in modern American poetry. Hence, the
traditional Chinese culture represented by Tang poetry spread more widely in the English-speaking world, producing a more lasting impact on societies and cultures outside China – and demonstrating the poetry’s ability to transcend the boundaries of time, region, nationality and culture. Due to different cultural backgrounds, the Tang poets or poems admired most by Western readers may not necessarily receive high acclaim in China. Sometimes language barriers and cultural differences make it impossible to represent certain allusions or cultural and ethnic concepts correctly during the translation process. However, in recent decades, the translation of Tang poetry has evolved considerably in both quantity and quality. As culture is manifested in language, and language is part of
culture, the translation of Tang poetry has allowed Western scholars to gain an unprecedented understanding of China and Chinese culture.

"The present selection of Hazlitt’s critical essays has been planned to serve two important purposes. In the first place it provides the materials for an estimate of the character and scope of Hazlitt’s contributions to criticism and so acquaints students with one of the greatest of English critics. And in the second place, what
is perhaps more important, such a selection, embodying a series of appreciations of the great English writers, should prove helpful in the college teaching of literature. There is no great critic who by his readableness and comprehensiveness is as well qualified as Hazlitt to aid in bringing home to students the power and the beauty of the essential things in literature. There is, in him a splendid stimulating energy which has not yet been sufficiently utilized." -Preface
