The 12th house in astrology isn’t known for being particularly transparent. It is, after all, traditionally the house of secret sorrows and self undoings. That can’t be good, my teen-aged self once thought, especially as I looked nervously to my Mercury, Neptune, and Mars conjunction hovering above my ascendant.

The Integrated Astrological Guide continues with this
second volume. This particular text deals with the encoding of information both astrologically and generally that interferes with and colors our critical thinking skills and ability for accurate foresight. Although myths are used to convey concepts, the running theme in all works is that neither astrology nor myths “cause” anything, and that each person’s reality is the result of free will effort and choices at every given moment. They do however; reflect engrained archetypal belief structures passed down over millennia. Those belief structures do affect reality. Logical rules will be increased in this volume and fallacious thinking illuminated not only in traditional astrological principles, but in widely
accepted social attitudes.

The scientific, historic, and popular basis behind the ancient art of astrology is explored in this comprehensive reference. The guide also includes a table of astrological glyphs and abbreviations, a section on casting a chart, and a chapter that explains and interprets every planet in every house and sign.

A complete explanation of how we bring our early environment and beliefs into adulthood and create our reality and experiences, is explored and explained psychologically, metaphysically and pragmatically. This book blends many different philosophies and gives the message that using astrology can be a tool to self-understanding and transformation; that it is not a mysterious tool of divination but that it can be used to examine our existing beliefs, and that it is up to us what we do with that knowledge. The ideas in this
book challenge the reader to look at the responsibility they have for their own lives, and begin to teach how to do this using astrology. The individual interpretations of placements are basic. The author has delved to the core of the meanings of the archetypes from a psychological perspective. The results are dynamic, all-encompassing (yet specific to the placement) keys, with which to begin delineations. This is something that has been lacking in many other astrology books with more shallow definitions. There are several example delineations of charts which take the reader through the process of using this information in a complete chart, showing how the insight from the previous chapters can be
used to "read" a chart. Definitely a work of text-book caliber, not a coffee-table book.

Longtime astrologers Shiva Das and Mercy Ananda take readers through every aspect of astrology, from its history, principles, components, and meanings, to its use as a tool to raise awareness and to understand possibilities in cause and effect. With nearly 180 black and white illustrations, including zodiac, primary wheel, and sign relationship depictions, Divine Love Astrology provides a thorough education in this ancient system. This essential guide embraces the immediate personal and practical applications of astrology and encompasses the broadest
philosophical and universal values, guiding us from Earthly mundane to the celestial Divine. Not only do the authors teach readers the basics of the field, but they also provide them with tools to reflect and develop intuitive understanding that will aid in reading astrology charts and living a conscious life. Divine Love Astrology will benefit those interested in becoming astrologers and help them—through the use of astrology as a contemplative science—develop their intuition. Rather than proposing that we live our lives by astrological events or learn to stereotype people, Das and Ananda help readers get in touch with their inner knowing, enabling them to make conscious choices for themselves in the present. With
its spiritual and applicable lens, Divine Love Astrology will help both professional astrologers and laypeople alike take charge of their lives from the inside out.
