The lipid bilayer is the most basic structural element of cell membranes. A wide range of topics are covered in this book, including:

- A detailed overview of decades of research on the lipid bilayer
- The role of lipids in various cellular processes
- The structure and function of membrane proteins
- The regulation of membrane permeability and ion channels
- The role of lipids in the development and progression of diseases such as cancer, Alzheimer's disease, and cardiovascular disease

The book is highly recommended for students and researchers in the fields of biology, chemistry, and biochemistry, as well as for those interested in the latest advances in lipid research. It is an excellent resource for anyone seeking to gain a deeper understanding of the fundamental principles underlying membrane biology.

In this time when immigrants often do not feel included in society, this book aims to capture the warmth and family values that made the original titles classics. A Kirkus Reviews Best Book of 2018!

The beloved characters from Sydney Taylor's All-of-a-Kind Family return in this heartwarming picture book from a new format. Fans, along with those just meeting the five girls ("all of a kind," as their parents affectionately call them) and their friends, will delight in this charming new story.

The shouting among the traders, the hustle and bustle of the market, the aroma of coffee in the cup... This is a world of not just one Mad Hatter, but hundreds. The Mad Hatters from Around the World is a unique and fascinating collection of stories from around the globe, each one bringing to life the Mad Hatter's tale in a way that is both captivating and engaging.

Yet, Leo Melamed was not born to wealth and influence. His is an extraordinary rags-to-riches tale of perseverance and determination. In this telling of his life story, you will meet a young man who defied the odds, overcame incredible challenges, and transformed the world of futures trading.

WINNER of the 2018 Sami Rohr Prize for Jewish Literature and the 2018 Sophie Brody Medal for achievement in Jewish writing. This vibrant and engaging novel is a tale of transformation, growth, and self-discovery, as the protagonist navigates the ups and downs of life, learns to let go of old ways of thinking, and embraces the power of love and forgiveness.

America's most famous sex therapist.

Many people whose work have made an important contribution to the broad spectrum of Jewish music. The accompanying audio CD with musical examples allows for an opportunity to listen to the music as well as read about it.

In An Engine, Not a Camera, Donald MacKenzie argues that the emergence of modern economic theories of finance affected the conduct of inquiry rather than a camera to reproduce empirical facts. More than that, the emergence of an authoritative theory of finance has transformed the field of economics.
