Accidental Sailor Girl is a story about a young girl named Kourtney and her journey from starting out with only her car and a surfboard to sailing across the Atlantic on a Gaff Rigged Cutter with a Square Sail named Norna. The story moves from her hardships of living on the
beach to buying her first sailboat, a 27 foot Hunter she named "Happy." Her attitude toward learning how to sail and how to fix up her boat led her to meet Pete Grundvig, a local carpenter and shipwright, the owner of Norna. Their relationship with surfing, sailing, and music, moved them to the tune of a two year Atlantic Circumnavigation. Kourtney soon realizes she is not the same person she was when she left home two years before.
