This is a popular short novel by Oscar Wilde. The story is a traditional English ghost story with the elements of comedy. This version is a newly illustrated variant of the original one, with over 15 unique illustrations.

English Teaching in the Secondary School is a comprehensive guide to the theory and practice of teaching English. This updated 4th edition has been revised to take into consideration changes in national policy, drawing on the most recent research and theory to produce engaging, practical ideas for use in the classroom. It challenges mechanistic and formulaic approaches to teaching, instead placing an emphasis on reflection, understanding and informed practice. Guiding students and new teachers through the whole process of English teaching in the secondary school, this edition has been fully updated to include: a report of the most recent developments in national policy • discussion of multiple literacies and critical literacy • a new chapter on English as an additional language • a new chapter on cross curricular themes • new sections on approaches to the teaching of grammar • reflections on international developments in language teaching and their relevance • a guide to further reading on resources and research Written in an accessible style, with a wealth of advice and ideas, English Teaching in the Secondary School forms essential reading for all those training to become secondary English teachers.

Language, Society and Power is the essential introductory text for students studying language in a variety of social contexts. This book examines the ways in which language functions, how it influences thought and how it varies according to age, ethnicity, class and gender. It seeks to answer such questions as: How can a language reflect the status of children and older people? Do men and women talk differently? How can our use of language mark our ethnic identity? It also looks at language use in politics and the media and investigates how language affects and constructs our identities, exploring notions of correctness and attitudes towards language use. This third edition of this bestselling book has been completely revised to include recent developments in theory and research and offers the following features: a range of new and engaging international examples drawn from everyday life: beauty advertisements, conversation transcripts, newspaper headlines reporting on asylum seekers, language themed cartoons, and excerpts from the television programme South Park and satirical news website The Onion new activities designed to give students a real understanding of the topic a new chapter covering 'Student Projects' – giving readers suggestions on how to further explore the topics covered in the book updated and expanded further reading sections for each chapter and a glossary. While it can be used as a stand-alone text, this edition of Language, Society and Power has also been fully cross-referenced with the new companion title: The Language, Society and Power Reader. Together these books provide the complete resource for students of English language and linguistics, media, communication, cultural studies, sociology and psychology.

The MEC/BC bilingual project, initiated in 1996 in primary as a unique experiment within the Spanish state education system, and in September 2004 the classes that had started their bilingual education 8 years earlier took the project forward into Secondary schools. The formal agreement between the MEC/BC states that the aim of the project is to provide students from the age of three to sixteen with a bilingual, bicultural education through an integrated Spanish/English curriculum based on the Spanish National Curriculum and aspects of the National Curriculum for England and Wales. The implantation of such a curriculum requires, firstly, with regard to English as a subject, a very different classroom approach from the traditional EFL classroom where the focus is on learning English as a foreign language: secondly, a similar new methodology for teaching and learning other curricular areas through English. Such an integrated approach sits very positively within the Directives of the Council of Europe which insists on the need for students to be competent in three European languages by the end of the obligatory period of Secondary Education and that the learning of the first foreign language should begin in the early years of formal education. In addition to this, the secondary integrated curricula have consistently focused on the continuing development of students' skills and learning strategies, thus firmly establishing learning as a lifelong process. The specific objectives of the Project in the Secondary education level are to: continue the acquisition and learning of both languages through an integrated content-based curriculum, encourage awareness and understanding of the diversity of both cultures, facilitate the exchange of teachers and students, encourage the use of modern technologies in learning other languages, promote the certification of studies under both educational systems, and if and when appropriate.

Budget literacy is defined as 'the ability to read, decipher, and understand public budgets to enable and enhance meaningful citizen participation in the budget process'. It is comprised of two main parts - (i) a technical understanding of public budgets, including familiarity with government spending, tax rates and public debt and; (ii) the ability to engage in the budget process, comprising of practical knowledge on day-to-day issues, as well as an elementary
understanding of the economic, social and political implications of budget policies, the stakeholders involved and when and how to provide inputs during the annual budget cycle. Given that no international standards or guidelines have been established for budget literacy education to date, this book seeks to address this gap by taking stock of illustrative initiatives promoting budget literacy for youth in selected countries. The underlying presumption is that when supply-side actors in the budget process -- governments -- simplify and disseminate budget information for demand-side actors -- citizens -- this information will then be used by citizens to provide feedback on the budget. However, since citizens are often insufficiently informed about public budgets to constructively participate in budget processes one way to empower them and to remedy the problem of "budget illiteracy" is to provide budget-literacy education in schools to youth, helping them evolve into civic-minded adults with the essential knowledge needed for analyzing their government's fiscal policy objectives and measures, and the confidence and sense of social responsibility to participate in the oversight of public resources. This book elaborates on approaches, learning outcomes, pedagogical strategies and assessment approaches for budget literacy education, and presents lessons that are relevant for the development, improvement, or scaling up of budget literacy initiatives.

"Exciting and engaging vocabulary instruction can set students on the path to a lifelong fascination with words. This book provides a research-based framework and practical strategies for vocabulary development with children from the earliest grades through high school. The authors emphasize instruction that offers rich information about words and their uses and enhances students' language comprehension and production. Teachers are guided in selecting words for instruction; developing student-friendly explanations of new words; creating meaningful learning activities; and getting students involved in thinking about, using, and noticing new words both within and outside the classroom. Many concrete examples, sample classroom dialogues, and exercises for teachers bring the material to life. Helpful appendices include suggestions for trade books that help children enlarge their vocabulary and/or have fun with different aspects of words"--

In a world that judges teachers by appearances and scores, this book is about finding a healthier and more meaningful way to relate to ourselves, our students and our profession.

This early work by James Joyce was originally published in 1939 and we are now republishing it with a brand new introduction. 'Finnegans Wake' is a an experimental novel of comic fiction. James Joyce was born in Dublin, Ireland in 1882. He excelled as a student at the Jesuit schools Clongowes and Belvedere, and then at University College Dublin, where he studied English, French, and Italian. Joyce produced several prominent works, including: 'Ulysses', 'A Portrait of the Young Artist', 'Dubliners', and 'Finnegans Wake. He is widely regarded as one of the most influential writers of the early twentieth century and his legacy can be seen throughout modern literature.

The adventures of sixteen-year-old David Balfour, an orphan, who after being kidnapped by his villainous uncle manages to escape and becomes involved in the struggle of the Scottish highlanders against English rule.
