Best known for his "Legend of Duluoz" novels, including On the Road and The Dharma Bums, Jack Kerouac is also an important poet. In these eight extended poems, Kerouac writes from the heart of experience in the music of language, employing the same instrumental blues form that he used to fullest effect in Mexico City Blues, his largely unheralded classic of postmodern literature. Edited by Kerouac himself, Book of Blues is an exuberant foray into language and consciousness, rich with imagery, propelled by rhythm, and based in a reverent attentiveness to the moment. "In my system, the form of blues choruses is limited by the small page of the breastpocket notebook in which they are written, like the form of a set number of bars in a jazz blues chorus, and so sometimes the word-meaning can carry from one chorus into another, or not, just like the phrase-meaning can carry harmonically from one chorus to the other, or not, in jazz, so that, in these blues as in jazz, the form is determined by time, and by the musicians spontaneous phrasing & harmonizing with the beat of time as it waves & waves on by in measured choruses." —Jack Kerouac

Affective Health and Masculinities in South Africa explores how different masculinities modulate substance use, interpersonal violence, suicidality, and AIDS as well as recovery cross-culturally. With a focus on three male protagonists living in very distinct urban areas of Cape Town, this comparative ethnography shows that men’s struggles to become invulnerable increase vulnerability. Through an analysis of masculinities as social assemblages, the study shows how affective health problems are tied to modern individualism rather than African ‘tradition’ that has become a cliché in Eurocentric gender studies. Affective health is conceptualized as a balancing act between autonomy and connectivity that after colonialism and apartheid has become compromised through the imperative of self-reliance. This book provides a rare perspective on young men’s vulnerability in everyday life that may affect the reader and spark discussion about how masculinities in relationships shape physical and psychological health. Moreover, it shows how men change in the face of distress in ways that may look different than global health and gender-transformative approaches envision. Thick descriptions of actual events over the life course make the study accessible to both graduate and undergraduate students in the social sciences. Contributing to current debates on mental health and masculinity, this volume will be of interest to scholars from various disciplines including anthropology, gender studies, African studies, psychology, and global health.
An “achingly beautiful” memoir about a mother’s mission to rescue her two teenage daughters from the streets and bring them back home (Kirkus Reviews, starred review). After a miserably failed marriage, Debra Gwartney moves with her four young daughters to Eugene, Oregon, for a new job and what she hopes will be a new life for herself and her family. But the two oldest, fourteen-year-old Amanda and thirteen-year-old Stephanie, blame their mother for what happened, and one day the two run off together—to the streets of their own city, then San Francisco, then nowhere to be found. The harrowing subculture of the American runaway, with its random violence, its dangerous street drugs, and its patchwork of hidden shelters, is captured with brilliant intensity in Live Through This as this panicked mother sets out to find her girls—examining her own mistakes and hoping against hope to bring them home and become a family again, united by forgiveness and love. “For all the raw power of this true story and the fearless honesty of the voice telling it, what sticks out for me is the literary craft that shapes every sentence. Debra Gwartney has seen clear to the bottom of her experience, purged it of self-righteousness, and emerged with a stunningly humane and humbled awareness of life’s troubles” —Phillip Lopate
