The International Cub Lo-Boy was built by International Harvester from 1955 through 1958 at the Louisville Works, Louisville, Kentucky, USA.

International Cub was a tractor for small acreages and for truck and vegetable farms. It remained in the lineup from 1947 to 1964. This was further verification of the demand for a small tractor. As rotary mowers became popular, many Cub tractors were equipped with the underslung mower.

Author Kenneth Updike presents the most complete and authoritative text available for those wishing to restore their Farmall Cub, Cub Lo-Boy, and Cub Cadet, from their inception in the 1940s through the end of production. The detailed text includes hard-to-find information on the development and design of each model, with all the relevant information on implements, improvements, serial numbers, dates, codes, engines and carburetors.

The developmental history of the tractors built by the dominant agricultural manufacturer of the early 20th Century, International Harvester, is dramatically told in The Farmall Dynasty. The book traces the evolution of the Farmall tractor from the early Titans and Moguls through to modern times. The book includes well-researched accounts of the development of the original Farmall, the Letter Series, 4100, Cub, and other legendary IHC tractors, with first-hand accounts from factory engineers describing the challenges they faced.

The book enthusiasts have been waiting for! From their inception in the 1940s through the end of production, this book discusses in detail the popular Farmall Cub, Bug Lo-Boy, and much-needed coverage of the Cub Cadet line. Amazing archival color images, advertisements, and detailed text deliver hard-to-find information on the development and design evolution of each model. Complete with implements, uses and improvements, serial number dates and codes, engine and carburetor coverage.
Restoration is one thing. Correct restoration is quite another! This extensively researched, beautifully illustrated book describes in detail the correct paint and decals for your Letter Series or McCormick-Deering tractor. Filled with factory drawings indicating decal placement, instructions for factory paint and finish of individual parts, and more for the Farmall A, B, C, H, M, and Cub; the McCormick-Deering -4, -6, and -9; and the Super Series and -TA tractors.
