Major John L. Plaster recalls his remarkable covert activities as a member of a special operations team during the Vietnam War in a “comprehensive, informative, and often exciting... account of an important part of the overall Vietnam tragedy” (The New York Times). Before there were Navy SEALs, there was SOG. Short for “Studies and Operations Group,” it was a secret operations force in Vietnam, the most highly decorated unit in the war. Although their chief mission was disrupting the main North Vietnamese supply route into South Vietnam, SOG commandos also rescued downed helicopter pilots and fellow soldiers, and infiltrated deep into Laos and Cambodia to identify bombing targets, conduct ambushes, mine roads, and capture North Vietnamese soldiers for intelligence purposes. Always outnumbered, they matched wits in the most dangerous environments with an unrelenting foe that hunted them with trackers and dogs. Ten entire teams disappeared and another fourteen were annihilated. This is the dramatic, page-turning true story of that team’s dedication, sacrifice, and constant fight for survival. In the “gripping” (Publishers Weekly) Secret Commandos, John Plaster vividly describes these unique warriors who gave everything fighting for their country—and for each other.

In the “gripping” (Publishers Weekly) Secret Commandos, John Plaster vividly describes these unique warriors who gave everything fighting for their country—and for each other.

John Plaster’s riveting account of his covert activities as a member of a special operations team during the Vietnam War is “a true insider’s account, this eye-opening report will leave readers feeling as if they’ve been given a hot scoop on a highly classified project” (Publishers Weekly). Code-named the Studies and Observations Group, SOG was the most secret elite US military unit to serve in the Vietnam War—so secret its existence was denied by the government. Composed entirely of volunteers from such ace fighting units as the Army Green Berets, Air Force Air Commandos, and Navy SEALs, SOG took on the most dangerous covert assignments, in the deadLIest and most forbidding theaters of operation. In SOG, Major John L. Plaster, a three-tour SOG veteran, shares the gripping exploits of these true American warriors in a minute-by-minute, beat-by-beat account of the group’s stunning operations behind enemy lines—penetrating heavily defended North Vietnamese military facilities, holding off mass enemy attacks, launching daring missions to rescue downed US pilots. Some of the most extraordinary true stories of honor and heroism in the history of the US military, from sabotage to espionage to hand-to-hand combat, Plaster’s account is “a detailed history of this little-known aspect of the Vietnam War... a worthy act of historical rescue from an unjustified, willed oblivion” (The New York Times).

“[T]he amazing story of a woman who lived through one of the worst times in human history, losing family members to the Nazis but surviving with her spirit and integrity intact.” —Publishers Weekly Marta Cohn was a young Jewish woman living just across the German border in France when Hitler rose to power. Her family sheltered Jews fleeing the Nazis, including Jewish children sent away by their terrified parents. But soon her homeland was also under Nazi rule. As the Nazi occupation escalated, Marthe’s sister was arrested and sent to Auschwitz and the rest of her family was forced to flee to the south of France. Always a fighter, Marthe joined the French Army and became a member of the
intelligence service of the French First Army. Marthe, using her perfect German accent and blond hair to pose as a young German nurse who was desperately trying to obtain word of a fictional fiancé, would slip behind enemy lines to retrieve inside information about Nazi troop movements. By traveling throughout the countryside and approaching troops sympathetic to her plight—risking death every time she did so—she learned where they were going next and was able to alert Allied commanders. When, at the age of eighty, Marthe Cohn was awarded France’s highest military honor, the Médaille Militaire, not even her children knew to what extent this modest woman had helped defeat the Nazi empire. At its heart, this remarkable memoir is the tale of an ordinary human being who, under extraordinary circumstances, became the hero her country needed her to be.

This personal account of Terry O’Farrell’s career as an SAS soldier vividly captures not only the military actions of his time in Vietnam, but the human aspects of surviving the intense selection process and training to dealing with the ever-present fear of combat. The horrors of long tense stretches on patrol in the jungle and being caught by surprise by the enemy are recounted. Also included are colorful tales of experiences off the battlefield—the larrikin pranks during training and the friendships that form between soldiers.

This is the companion photo history to SOG: The Secret Wars of America’s Commandos in Vietnam. In 1972 the U.S. military took steps to ensure that such a book could never be printed by destroying all the known photos that existed of the top-secret Studies and Observations Group. But unknown to those in charge, SOG veterans brought back with them hundreds of photographs of SOG in action and kept them secret for more than three decades. More than 700 irreplaceable photos bring to life the stories of SOG legends Larry Thorne, Bob Howard, Dick Meadows, George Sisler, “Q” and others, and documents what really happened deep inside enemy territory: Operation Tailwind, the Son Tay raid, SOG’s defense of Khe Sanh, Hatchet Force operations, Bright Light rescues, HALO insertions, string extractions, SOG’s darkest programs and much more.

“This book is based on the reports, letters, diaries, memoirs, and taped interviews of those who served. As well as the triumphs, the book tells of the frustrations and disasters that befell those who volunteered to fight this lonely and dangerous war behind enemy lines.”—Page 4 of cover.

At the age of eighteen, Aaron Cohen left Beverly Hills to prove himself in the crucible of the armed forces. He was determined to be a part of Israel’s most elite security cadre, akin to the American Green Berets and Navy SEALs. After fifteen months of grueling training designed to break down each individual man and to rebuild him as a warrior, Cohen was offered the only post a non-Israeli can hold in the special forces. In 1996 he joined a top-secret, highly controversial unit that dispatches operatives disguised as Arabs into the Palestinian-controlled West Bank to abduct terrorist leaders and bring them to Israel for interrogation and trial. Between 1996 and 1998, Aaron Cohen would learn Hebrew and Arabic; become an expert in urban counterterror warfare, the martial art of Krav Maga, and undercover operations; and participate in dozens of life-or-death missions. He would infiltrate a Hamas wedding to seize a wanted terrorist and pose as an American journalist to set a trap for one of the financiers behind the Dizengoff Massacre, taking him down in a brutal, hand-to-hand struggle. A propulsive, gripping read, Cohen’s story is a rare, fly-on-the-wall view into the shadowy world of “black ops” that redefines invincible strength, true danger, and inviolable security.

Exciting yarns of espionage and daring: A trio of nail-biting adventures of fearless British fighters and their daring exploits defusing a British bomb buried deep in the walls of a dreaded Nazi prison, working with Italian freedom fighters more like bandits than partisans, and bringing a fiendish Nazi plot to an end. Includes “Into Bandit Country,” “One Man’s War,” and “Spy Trap.”
